**NOTE.**—It is well known that the region along Lake Erie, in Chautauqua county, is naturally one of the finest localities in the world for the propagation of the grape. Appreciating the fact, we have made arrangements to have large quantities of vines grown for us there, and we can now offer the best grade of all the leading varieties of grapes at the most favorable prices. For other ages and varieties than those quoted, and for large quantities, write for our figures before buying.
